Money Notes is a new app that helps you track your finances and achieve your financial goals. With Money Notes, you can easily track your income, expenses, and savings, and create budgets that will help you reach your financial goals.

Features of Money Notes

- **Track your income and expenses:** Money Notes makes it easy to track your income and expenses. You can create custom categories to track your spending, and you can even add notes to your transactions to help you remember what you spent your money on.

- **Create budgets:** Money Notes helps you create budgets that will help you reach your financial goals. You can set spending limits for each of your categories, and you can even create multiple budgets for different financial goals.
- **Set financial goals:** Money Notes helps you set financial goals and track your progress towards achieving them. You can create goals for saving money, paying off debt, or investing for the future.
- **Sync your accounts:** Money Notes can sync with your bank accounts and credit cards, so you can automatically track your transactions. This makes it easy to stay on top of your finances, even if you're not great at keeping track of your receipts.
- **Get insights into your spending:** Money Notes provides you with insights into your spending habits. You can see where your money is going, and you can identify areas where you can save money.
