Print length : 192 pages

## What's Included?

This set of flashcards includes:

- 50 addition flashcards
- 50 subtraction flashcards
- Instructions for 5 different games

## How to Use the Flashcards

There are many different ways to use these flashcards to teach your child addition and subtraction. Here are a few ideas:

- **Flashcards:** Show your child a flashcard and ask them to answer the question. For example, if the flashcard shows  $2 + 3$ , ask your child "What is  $2 + 3$ ?"
- **Games:** There are 5 different games included in this set, each of which is designed to help your child learn addition and subtraction in a fun and engaging way.
- **Math Center:** Place the flashcards in a math center in your home or classroom. This will allow your child to access the flashcards independently and practice their addition and subtraction skills.

## Benefits of Using Flashcards

There are many benefits to using flashcards to teach your child addition and subtraction. Here are a few:

- **Flashcards are a fun and engaging way to learn.** Kids love playing games and flashcards can be a great way to make learning math fun.
- **Flashcards are a great way to practice skills.** The more your child practices addition and subtraction, the better they will become at it.
- **Flashcards are portable.** You can take flashcards with you wherever you go, which makes them a great way to practice math on the go.
- **Flashcards are affordable.** This set of flashcards is very affordable, making it a great value for your money.
